## Your true talent

As an aspiring artist, I sometimes get asked how I can draw, or that I'm talented, but I'm here to say that all of that is a myth. Talent is sometimes put in the wrong light, and is expressed as something that you're naturally good at, but that is definitely not the case.

Sometimes I get comments that seem very out of nowhere, and just don't make much sense if you actually think about it. For example, like "You're so amazing! i cant even draw a stick man!", and to say the least it makes many like me uncomfortable, since drawing is a skill we've been honing for so long, and to then get compared with someone who doesn't have the same passion to actually try is disheartening.

Just like any other skill, like writing or sports, people get better the more they practice, and i can definitely tell you that all of them are a journey, and take years to perfect. Do not be discouraged if your first sketch looks like chicken scratches, pick it up again and again and with that, you'll become so good you'll question how you thought it wasn't possible. People change and adapt, and learn and continue learning, because with that you will gain that "talent". Over the years that word has become so shallow and has lost its meaning, because let's be real, if drawing is a rare talent, would so many be able to do it? would the selected few be the only ones that can do something well? I doubt it.

Everybody has a spark or a passion, or a wanting to be good at something. And when you have enough of that passion and the will to do it, thats when a talent begins to manifest.

私はえが大好きです、ときどき友だちに「アミーラは絵が上手ですね」、「絵のさいのがあるね」と言われます。もし才能があればうまれたときからじょうずだとおもいますか？それはちがいます。

ときどき友だちは私の絵お見て、「すごい！私しは棒人間も書けませんよ！」と言いますがそれはちょっと可笑しいですだって私はたくさん練習をしました、でも友だちはえがあまり書きませんだから比べるのは変です。

絵だけじゃないですスポーツも音楽もたくさん練習すればもっと上手になります。完璧になるまで長い時間が掛かります。始めは赤ちゃんみたいに下手かもしりません、でも諦めないで何回も何回も書けば上手になります。私たちはそうやって才能を磨いて育てていくんです。

私たちは才能という言葉簡単に使います、例えばもし出来ない事が有ったら「無理！出来ないだって私は才能が有りませんから！」と言いますがそれは言い訳です才能の本当の意味を分かっていません。

本当の才能は貴方のパッションから始まります、大好きなものがあつて、パワーを感じます、そこから貴方の才能磨いて育ててください。

貴方の本当の才能は何ですか？
